HEADACHE

Sick Headache: DEAR BRO. MERK, Editor Central Methodist,

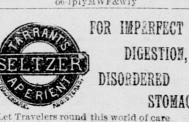

Editor Central Methodist,
Catlettsburg, Ky,
"I see in the last Central that you want a remedy for sick Headache. If you will use a remedy that you advertise in your paper every week, I am sure you will be greatly benefited thereby, and I believe cured. I have been a sufferer from Sick Headache, I can say almost from infancy, and have tried every remedy I could get, and never found anything to do me any good until I used Simmons Liver Regulator. It has been nearly three years since I first used it, and I have not had Sick Headache since, and I never used but two and one-half packages of the Regulator. I sent my sister (who had from one to two attacks of Sick Headache every week), one-half of a package, and she has not had it since. I feel for anyone who suffers with that terrible disease, and I hope you will give it a trial."

HONG DI!

THE MONGOLIAN FIEND TRAPPED AT LAST.

A Sewing Machine Agent Covers Himself with Glory-The Murderer's Flimsy Ruse.

[BY TELEGRAPH TO THE RECORD-UNION.]

CHICO, May 22d .- This city and vicinity vesterday morning, and the excitement reached the climax to-day when it was learned that the murderer had actually been captured. It appears that on yesterday morning the keeper of the Chico free bridge found on the bridge some property belonging to Hong Di, including his gun, hat and shoes and some letters, in one of which he stated that he was going to drown nimself in the river. The gun was identiied as his, and the tracks were traced across the bridge toward Chico. Sheriff Ball and numerous citizens at once began searching for him. It was thought by some to be a blind to let him get out of the country; but Hong Di could read and write, and his signature to the letters were in the same hand that wrote his name on his photo-graphs. One of the letters said that he did not intend to kill the woman, but the man Weaver had threatened to kill him, and he

The Ex-Paster of St. Stephens Actually Ordered to Rome. NEW YORK, May 21st.—Archbishop Corigan to-day received a letter from the Pope regarding the case of Dr. McGlynn. The letter comments on the course of the Arch-bishop, laments the rebellion against his authority, and deplores the fact that other members of the clergy are imbued with the doctrines of Dr. McGlynn. The Pope re-fers to the teachings of McGlynn on the land question as "vicious seeds of doctrine scattered under a pretext of helping the masses." The Pope assures the Archbishop that his good name and dignity, as well as that of the Apostolic See, will not be per-mitted to suffer any indignity, and that timely measures would be taken for the correction of rebellion.

NEW YORK, May 22d .- The letter of the ope to the Archbishop contained another note scarcely less important as laid before Dr. McGlynn. The substance was that unless the doctor goes to Rome within forty days he will be visited with the exeme penalty of the Church-excommun ation. This note was sent to the doctor esterday afternoon or last evening by a pecial messenger, but he had not received t when seen by a reporter. He said he had not read the Pope's letter to the Arch-

WILL THE PEOPLE SUBMIT TO IT?

The people of California should keep it management at San Francisco is a private association, run for private gain. It is now engaged in an effort to crush out all the District Fairs and the State Fair, and draw into its capacious maw the vitality of all the interior expositions of the State. The people of the interior who know

the value of the local fairs to them and to all the State, should respond to this shameful attempt to absorb vitality and broaden the impression that San Francisco is the State, and that outside of it nothing can be done, with a very active and, if need be, a bitter antagonism.

They ought to resolve not to exhibit at the San Francisco show; not to attend it; not to give it patronage, or an iota of support, moral or material.

All great cities are largely dependent for the support of places of entertainment upon the transient public, the influx from the interior, the current of travel, and visitation by strangers. Now let the people of the interior make the San Francisco concern feel the force of their indignation by booming every district and county fair, inducing the strangers here, and to come here, to visit the interior, by redoubling their energies for the success of the State

The showmen, hotel and boarding-house keepers, pocket-lining fair managers and the shopmen of San Francisco, have enpreventing the disbursement, except in San Francisco, of any of the money usually spent during the fair season in the interior. The question is, "Will the people of the agricultural counties be parties to this scheme?"

We do not believe they will; they have local pride sufficient and self-interest enough to defeat the conspirators. Without interior aid the San Francisco Fair can be only a local shop-show, and to that level it ought to descend, because the man agement has meanly and insultingly stretched the period of the San Francisco exhibition over the dates that include the very best of the district fairs, and this without a particle of reason or a solitary

The "Institute" management has sent out its agents to solicit the people of the interior to furnish it the means for making a great exhibition at the expense of all others of the State, and have backed its agents with money pledged by capital in San Francisco. The sole and only puragricultural and the State Agricultural Society, that private gains may be augmented. It is a short-sighted, selfish and grasping policy, and can only succeed by the acquiescence of the people of the interior. We repeat, no one wishes the San Francisco Fair to be otherwise than successful, so long as it keeps within the be so ,if experience is of any value. bounds of its legitimate and defensible purpose. But there is time enough for all the fairs without a particle of conflict. It is, therefore, the most unwise policy imaginable for one concern to attempt to absorb all the energy and capacity of the people to maintain expositions of the products of the State in the agricultural regions. The District Fairs and the State Fair have been adjusted as to season and place, so as to put our products on exhibition in many sections of the State during the summer and fall, thus greatly enhance ing the value of these expositions. To that end they have secured State aid They must not now by the machinations of an interested few in San Francisco be crippled by an opposition, as is clearly the purpose of the Mechanics' Institute concern, that the coffers of the syndicate that conducts it may be filled.

IMPROVE THE HOUR.

There never was a better time than this to organize a city improvement association. The Citizens' Association might well be resurrected and fill the role, but if so, it should confine its efforts to local and surburban devolopment and improvement distinctively, and free from all questions of a quasi-political nature, or relating to any financial adjustments or debates, for the present relates to local improvement, not to the policies of municipal government-That association did such gallant service in the levee improvement matter, and so quickened the public mind upon the sanitation of the city and cognate subjects, that the same elements could be of great service to the city if mustered into the local and suburban improvement move-

E. & O. E.'S VS. ACMES. These two clubs of the Amateur League came together, and the alphabetical nine gave their opponents a grand whitewashing, they being unable to gauge Hapeman's pitching a little bit. Lindley, of the E. & O. E.'s, made a beautiful one-hand catch, and Woodworth, of the Acmes, three excellent catches in left field.

TRANSPORTATION RATES.

New Classification of Goods for Eastern Shipment.

The San Francisco Call publishes the folowing: The Chicago conference has provided fo a general reduction of rates from this coast o the Atlantic seaboard to take effect on Wednesday next. This, it is understood, was done in order to relieve the American overland lines from the disadvantage unler which they were placed by the eastbound rates agreed upon on the 27th of April, issued under a suspension of the long and short haul clause of the interstate commerce law, as competitors with the Canadian Pacific road and the Pacific Mail cago bear the reduction as those east of that point refused to prorate. The initiatory "fumbled." McLaughlin was suppressed step in this direction was to make the rates om San Francisco to Chicago as contained n the tariff of April 27th the new rates to New York and the Atlantic seaboard. ome Important Suggestions From Albert Gallatin in the City's Interest. EDS. RECORD-UNION: In answer to your inquiry as to what I think most desirable to be done to add to the present prosperous condition of Sacramento I cheerfully submit the following for the consideration of vour readers:

First then we need first-class hotel ac commodations. I have been told that the Raymond and Whitcomb excursion agents said, when asked why they did not stop their excursion parties at Sacramento for a week or ten days, same as they do at Los Angeles, San Diego, Monterey and San Francisco, they said, "You have not suitable hotel accommodations. We came here several years ago with a view of making such an arrangement, but gave it up for the above reason." If this state of af-fairs could be remedied by the improve-ment of hotels we now have, or by building a new large hotel, the advantage of having from 150 to 200 Eastern people stopping in Sacramento for a brief period to be followed by others, would be very great on account of the opportunity they would have to inform themselves while here, and the advertising matter they would scatter among their Eastern friends when they return.

WINTER DRIVES. Tenth street should be graded to Y. The Y-street levee should be graded to Thirty-first street, and Thirty-first street to F street. Then grade N street from Fifteenth to Thirty-tirst, and I street from Thirty-first west to where it is now graded. These, with the paved and graveled streets we now have, would give a number of miles of good winter drives, which would add much to the attractions of the city i winter. In addition to these drives in the city, the road past the County Hospital to Florin, from Florin west to Calios, and the denied the charge, and appealed to the Alta's favor. Toward the close of the that place, played the Santa Cruz Club a lower Stockton and Freeport roads, from this road to the city, should be put in good condition for winter driving. Add to thes the road out J street, to Brighton and return via the road which intersects M stree at Thirty-first, and let all the roads outside the city limits be kept in good condition in addition to the streets named within the city limits, and there would be an opportunity to show Eastern tourists something f the city and county without plowing through the mud.

EAST PARK. Some of the largest stockholders of the East Park Association are considering the advisability of donating their interest in this park to the city. Also to acquire the land lying between said park and J street, with a view of the city owning a pleasure resort which shall include the present East Park, and all the land lying between the same and J street, including New Helvetia Cemetery, which the city now owns. If this project can be carried out, and the driveway made suitable for winter use, it will become a very desirable adjunct to the city THE STATE CAPITOL PARK

should be improved. The driveway aroun the center of the eastern portion should b restored. Also the entrance on Thirteenth street, both sides, and Fifteenth street. The driveway connecting this portion with the State Capitol building should be opened. The oval plat between the Capitol and Printing Office and State Agricultural Pailion should be graded and terraced, to orrespond with the present grounds, leav ing a level plateau on the same level as the pase of the Capitol building, which would nake a good site for a conservatory, foun ain or an equestrian statue. The balance of this portion of the park would probably require to be filled enough to prevent water from standing on the surface. The improvement of this park should be done in this or some other suitable manner, at the expense of the State, and if there is no money that can be used for this purpose will the Hon. Secretary of State recommend an appropriation for this purpose in his next report to the Legislature?

pavilion now standing on the southeas orner of State Capitol park-somethin over \$50,000. I think it would seem that he State should at least take proper care of this property, and keep it in such a con dition that it will be a pride to citizen from all portions of the State.

CHINA SLOUGH AND CHINATOWN. Next, remove Chinatown across the American or Sacramento river, or to below the city, where they may not, by their accumulations of filth, contaminate our water upply.

Fill China slough, and let the ground be ased by the railroad company or for other

surposes. Any thing or any use would b prefera le to the present. OTHER PROPOSITIONS.

Improve and extend our present system of sewerage, and what is more important provide a better system of drainage. Get rid of the present drainage canal, and, i necessary, pump what cannot be used for irrigation into the Sacramento river, after carrying it down the river inside the

Awnings supported by posts from the dewalks are in most cases a nuisance and ought to be prohibited by ordinance. The awning put up by the writer on the Wells-Fargo building, about five years ago, answers every purpose for protection from rain and sun, and cannot be used for the storage of old boots, fuel, houshold goods. nor as a convenient location for water closets, clothes lines, etc. There is no dis guising the fact that the old style of awning detracts very much from the appearance of our streets.

The proposition to commence by improving the city is, in my judgment, the proper course, and, at the same time, give every encouragement to the improvemen of the immediate suburbs by improving the roadways, planting trees, painting and improving buildings, fences, etc., and then homeseekers coming among us will be im-pressed with the idea that our property has value, because we show a disposition to improve it ourselves.

The proposed railroad from Perkins' tation, near Brighton, via the Jackson ighway to Michigan Bar, thence to the imber regions, should be encouraged ALBERT GALLATIN. Yours, etc..

The people of the interior who know the value of the local fairs to them and to all the State, should respond to this broaden the impression that San Francisco is the State, and that outside of it nothing can be done, with a very active and, if need | well puts it, the verdict stamps out the be, a bitter antagonism

They ought to resolve not to exhibit at the San Francisco show; not to attend it; not to give it patronage, or an iota of support, moral or material.

All great cities are largely dependent for the support of places of entertainment upon the transient public, the influx from the interior, the current of travel, and visitation by strangers. Now let the people of the interior make the San Francisco concern feel the force of their indignation by booming every district and county fair, inducing the strangers here, and to come here, to visit the interior, by redoubling their energies for the success of the State

The showmen, hotel and boarding-housekeepers, pocket-lining fair managers and the shopmen of San Francisco, have entered into a conspiracy to grasp all the preventing the disbursement, except in San Francisco, of any of the money usually spent during the fair season in the interior. The question is, "Will the people of the agricultural counties be parties to this scheme?"

We do not believe they will; they have local pride sufficient and self-interest enough to defeat the conspirators. Without interior aid the San Francisco Fair can be only a local shop-show, and to that level it ought to descend, because the man agement has meanly and insultingly stretched the period of the San Francisco exhibition over the dates that include the very best of the district fairs, and this without a particle of reason or a solitary

The "Institute" management has sent others of the State, and have backed its agricultural and the State Agricultural Society, that private gains may be augmented. It is a short-sighted, selfish and grasping policy, and can only succeed by the acquiescence of the people of the interior. We repeat, no one wishes the San Francisco Fair to be otherwise than successful, so long as it keeps within the be so, if experience is of any value. bounds of its legitimate and defensible purpose. But there is time enough for all the fairs without a particle of conflict. It is, therefore, the most unwise policy imaginable for one concern to attempt to absorb all the energy and capacity of the people to maintain expositions of the products of the State in the agricultural regions. The District Fairs and the State Fair have been adjusted as to season and place, so as to put our products on exhibition in many sections of the State during the summer and fall, thus greatly enhancing the value of these expositions. To that end they have secured State aid. They must not now by the machinations of an interested few in San Francisco be crippled by an opposition, as is clearly the purpose of the Mechanics' Institute conconducts it may be filled.

IMPROVE THE HOUR.

There never was a better time than this to organize a city improvement association. The Citizens' Association might well be resurrected and fill the role, but if so, it should confine its efforts to local and surburban devolopment and improvement distinctively, and free from all questions of a quasi-political nature, or relating to any financial adjustments or debates, for the present relates to local improvement, not to the policies of municipal government-That association did such gallant service in the levee improvement matter, and so quickened the public mind upon the sanitation of the city and cognate subjects. that the same elements could be of great service to the city if mustered into the local and suburban improvement move-

Such organization will be a nucleus for the rallying of the "go-ahead" people; a means for the expression of public thought, a medium through which outside influences may be addressed and moved. It ought to be formed, and to-day, and be so broad in The Altas Win an Exciting Game its membership, generous in its schemes free in its faith and public-spirited in its foresightedness and activity, as to quicken every sentiment of loyalty to the town, bers, in its home and general circulatier and publish abroad that Sacramento is in cultural Park between the Altas and Hav the fore-front of the grand army of self- erlys would draw out the largest attend helpers.

The San Francisco Bulletin and San Francisco Call have won their libel suit against the San Francisco Chronicle. Only nominal damages were awarded, but the plaintiffs we understood to expressly disclaim any desire for smart money. What they asked was a verdict that the story of It is stated that Dr. McGlynn has, beyond the Chronicle was untrue, and that verdict the Bulletin and Call managements have received at the hands of a jury of the country. ome Important Suggestions From Albert Gallatin in the City's Interest. EDS. RECORD-UNION: In answer to your inquiry as to what I think most desirable to be done to add to the present prosperous condition of Sacramento I cheerfully submit the following for the consideration of our readers :

First then we need first-class hotel accommodations. I have been told that the Raymond and Whitcomb excursion agents said, when asked why they did not stop their excursion parties at Sacramento for a week or ten days, same as they do at Los Angeles, San Diego, Monterey and San Francisco, they said, "You have not suitable hotel accommodations. We came here several years ago with a view of making such an arrangement, but gave it up for the above reason." If this state of affairs could be remedied by the improvement of hotels we now have, or by build ing a new large hotel, the advantage o having from 150 to 200 Eastern people stopping in Sacramento for a brief period to be followed by others, would be very great on account of the opportunity they would have to inform themselves while here, and the advertising matter they would scatter among their Eastern friends when they return. WINTER DRIVES.

Tenth street should be graded to Y. The Y-street levee should be graded to Thirty-first street, and Thirty-first street to F street. Then grade N street from Fifteenth to Thirty-tirst, and I street from Thirty-first west to where it is now graded. These, with the paved and graveled streets we now have, would give a number of miles of good winter drives, which would add much to the attractions of the city in winter. In addition to these drives in the city, the road past the County Hospital Florin, from Florin west to Calios, and the lower Stockton and Freeport roads, from this road to the city, should be put in good condition for winter driving. Add to thes the road out J street, to Brighton and return via the road which intersects M stree at Thirty-first, and let all the roads outside the city limits be kept in good condition in addition to the streets named within the city limits, and there would be an opportunity to show Eastern tourists something of the city and county without plowing through the mud.

Some of the largest stockholders of the East Park Association are considering the advisability of donating their interest i this park to the city. Also to acquire the land lying between said park and J street, with a view of the city owning a pleasure resort which shall include the present East Park, and all the land lying between the same and J street, including New Helvetia Cemetery, which the city now owns. If this project can be carried out, and the drive way made suitable for winter use, it will become a very desirable adjunct to the city

THE STATE CAPITOL PARK hould be improved. The driveway around the center of the eastern portion should be restored. Also the entrance on Thirteenth street, both sides, and Fifteenth street. The driveway connecting this portion with the State Capitol building should be opened. The oval plat between the Capitol and Printing Office and State Agricultural Pa vilion should be graded and terraced, to orrespond with the present grounds, leaving a level plateau on the same level as the ase of the Capitol building, which would nake a good site for a conservatory, tain or an equestrian statue. The balance of this portion of the park would probably require to be filled enough to prevent water om standing on the surface. The improvement of this park should be done in this or some other suitable manner, at the money that can be used for this purpose April, issued under a suspension of the ong and short haul clause of the interstate ommerce law, as competitors with the mend an appropriation for this purpose in his next report to the Legislature? nett had a hole in his bat. Hanley was put out at first with Robertson's assistance, and country of the conference that the only thing to be namely, for the purchase of Agricultural PANY.

of this property, and keep it in such a con-dition that it will be a pride to citizens from all portions of the State. CHINA SLOUGH AND CHINATOWN Next, remove Chinatown across the American or Sacramento river, or to below the city, where they may not, by their accu ulations of filth, contaminate our water Fill China slough, and let the ground be

used by the railroad company or for other purposes. Any thing or any use would be prefera le to the present. OTHER PROPOSITIONS.

Improve and extend our present system sewerage, and what is more important rovide a better system of drainage. Ge rid of the present drainage canal, and, i necessary, pump what cannot be used for irrigation into the Sacramento river, after carrying it down the river inside the

Awnings supported by posts from the dewalks are in most cases a nuisance and ought to be prohibited by ordinance The awning put up by the writer on the Wells-Fargo building, about five years ago. answers every purpose for protection from rain and sun, and cannot be used for the storage of old boots, fuel, houshold goods nor as a convenient location for water closets, clothes lines, etc. There is no dis guising the fact that the old style of awning etracts very much from the appearance of our streets.

The proposition to commence by im proving the city is, in my judgment, the proper course, and, at the same time, give ery encouragement to the improvement of the immediate suburbs by improving the roadways, planting trees, painting and improving buildings, fences, etc., and then meseekers coming among us will be im ressed with the idea that our property has a value, because we show a disposition t mprove it ourselves.

These gentlemen, who are all Secretaries, were met at the depot by the local Reception Committee, and escorted to the homes thrown open to them by our citizens. In the evening a parlor conference was held under the lead-ership of Mr. Weidensali, when matters relating to the welfare of the local association were discussed. Yesterday morning, C. A. Licklider and J. Sherrard occupied the pulpit of the Central M. E. Church. In the afternoon all the delegates were present at the Young Men's meeting in the association rooms and took part in the exercises. There was and took part in the exercises. There was a large attendance of young men, who listened attentively to the various speakers. The theme was "A Purpose in Life." The singing was led by a large male choir, with D. D. Stryke at the organ. In the evening the gentlemen spoke at the various churches as follows: Sixth-street M. E., Robert Weidensall; Westminster Presbyterian, C. A. Lickhder and R. C. Coldwell; Calvary Baptist, George H. Simmons and F. B. Holt, and Congregational Mission, James Sherrard. The work of the Association was laid before the congregations in each place, and its claims for suptions in each place, and its claims for sup-port urged. To-day the delegates visi Woodland, where the second association building in the State is being erected, and this evening they start for home.

HOUSEHOLD REMEDIES "SARSFIELD" REMEDIES CO.

SARSFIELD'S REMEDY for the Blood and Constipation! SARSFIELD'S REMEDY for Diphtheria and Pneumonia!
SARSFIELD'S CHRONIC ULCER SALVE!

The people of the Interior will remember that a few years ago, J. P. SARSFIELD, of Sacramento, became fortunately possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California remarkable cures, and drew the approving attention of many physicians. So wide-spread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable

The making of Certificates has related so largely to fraud, that the public has naturally grown suspicious of them. But those here referred to are by such prominent citizens, of such irreproachable character, and the cures are so well known, and the witnesses so easy to reach, that we make the references with

MRS. H. C. GOODRIDGE, 28 Hawthorne street, nine years in bed with Chronic Ulcers and unutterable pain, and abandoned by physicians. Permanently cured in less than four weeks.
